

# Skander Kefi

As a computer science student with a growing interest in web development, I am excited to learn more about HTML, CSS, JavaScript, and other web technologies. I have completed a few small projects such as creating a personal website. I am eager to continue learning and growing in this field and am seeking opportunities to gain more experience and develop my skills further.

## EDUCATION

### BAC

Carthage Presidance

09/2020 - 07/2021

### Bachelor's degree

Higher Institute of Computer Science of Kef

09/2021 - Present

Courses

- Computer Science

## PERSONAL PROJECTS

### A Personal Portfolio Website (03/2023 - 04/2023)

- I created a portfolio website using Laravel. With its powerful features and MVC architecture, I was able to develop a dynamic website that showcases my skills and achievements as a web developer. I am passionate about using Laravel and other web technologies to build engaging and functional websites and applications.

### University Website (02/2023 - 04/2023)

- I developed a user-friendly and visually appealing website for my university that accurately represents its mission and values. Using my expertise in web development, I designed and developed a website that effectively highlights the university's programs, services, and events
- HTML & CSS & JS & PHP

## WORK EXPERIENCE

### Freelance

Upwork

### Frontend Web Developer

PloxHost

06/2020 - 07/2020
